In a voice that carried evMence of sincerity, a girl not over seventeen years of age thus answerd to Justice Crutchfield in the Police Court yesterday morning the charge of having stolen a ring of the value of \$12 from Miss Julia at whose home she had boarded. Pearl Ellett was the name of the unfortunate young girl, who now lies at the City Hospital in an hysterical con-

dition as a result of maning heart the sentence of guilty passed upon her.

Justlee John J. Crutchfield had no alternative. It was one of the cases where duty demands, and where sympathy must be laid aside. His voice showed that it was an unpleasant duty, yet the words came with no lesser effect

on the prisoner.

### MR. SWANSON **ANSWERS MACKEY**

Denounces the Roanoke Article As Vicious and Slanderous.

THE CHARGES INVESTIGATED

Every Member of Congressional Committee Fully Exonerated Mr. Swanson.

Congressman Swanson, when asked to-day concerning the article in a Roanoke paper criticising him, made the follow-

ng statement;
On August 3d last there was published in the Roanoke Times a slanderous arti-cle against me by Crandall Mackey, of Alexandria county, a bitter political op-ponent. I am informed from sources that cannot be questioned that this article of hree columns was only published by the paper as an advertisement, paid for at the usual rates. Many copies of this paper were distributed through Virginia, I have since been informed that requests have been made for the reproduction of this article, and that it will appear in other papers, being paid for at the usual

I cannot too severely express my contempt of this new method of warfare in Virginia politics of PAYING NEWSPA-PERS TO ADVERTISE SLANDEROUS MATTER AGAINST CANDIDATES FOR

PERS TO ADVERTISE SLANDEROUS OFFICE.
This party seeks to use as the basis of his misrepresentation and slander a report made by Mr. Bristow to the Postoffice Committee of the House of Representatives of February 55, 1904, in which report he gives a list of about nine hundred postoffices in the United States of third and fourth class where the allowance for clerk hire previously made had been reduced or abolished.

In this list of nine hundred postoffices is included the names of the representatives who had recommended the increase of clerk hire allowances. Attached to this was a summary of what was done in each case. The report also contained a list of leases made by the Postoffice Department of postofflees where the report of the inspector in many cases had not been followed, or where, for other reasons, he thought another site should have been selected.
This list showed that out of the nine hundred cases thus mined there were nine cases in my congressional district where I had recommended increased clerk hire allowances for third and fourth class postoffices, and at one place outside of my district, Hampton, Va., I had recommended the renewal of a lease about to extend the then site.

This list showed that about one hundred the then site.

This list showed that about one hundred.

pire for the continuance of the office at the then site.

This list showed that about one hundred and ninety representatives in Cnogress had made recommendations similar to mine. This list of Mr. Bristow included many of the most distinguished, patiotic and purest men in public life to-day, and includes Senators Clay, of Georgia; Culion, of Illinois; Mason, of Illinois; Vice-President Fairbanks; Balley, of Texas, Beverdige, of Indiana; Dolliver and Allison, of Jowa; Money, of Mississippi; Cockrell, of Missouri; Pritchard, of North

others.

Among the Congressmen can be named Speaker Henderson; Griggs, of Goorgia; Howard, of Georgia; Hemenway, since elected senator from Indiana; Kitchin, of North Carolina; Kiche, of Keetucky; Grosvenor, Tawney, Cowherd, Dick, since elected senator, from Ohio; Kluttz and Small, of North Carolina; Sherman and Phyne, of New York, chalrman of the Ways and Means Committee; Hepburn, of Iowa, chairman of the Interstate and Foreign Commerce Committee, and many others.

this committee, which Mackey alludes to as a "whitewashing committee," is as much superior to his as is virtue to vice, truth to slander and justice to malignity.

I voted for a full and thorough investigation of the Postoffice Department at every opportunity presented, so that all my acts and work in connection with the Postoffice Department for the last thirteen years could be fully known and presented to the public.

I might well rest this matter with the report of this honorable committee, but I shall no do so, but shall state the facts in each case mentioned in Mackey's false and slanderous article a misstanement of the law governing third and fourth class offices shary allowances for et the annual or fourth class postoffice, which class belong those mention in this article. The appropriation for these is always made in a bulk sum, the annual to be given in each case being left to the discretion of the Postoffice Committee upon this matter said:

"The present law, providing for allowances for clerk hire at the question of what shall be allowed ENTIRELY TO THE DISCRETION OF THE DEPARTMENT."

Where the allowance was for separating or distributing mails for routes, the department had a scale of its own, which endeavored to regulate it by the amount of mail separated or distribution, in addition to this, the law permitted that wherever there were unusual business, leaves the question of what shall be allowed ENTIRELY TO THE DISCRETION OF THE DEPARTMENT."

Where the allowance was for separating or distributing mails for routes, the department had a scale of its own, which endeavored to regulate it by the amount of mail separated or distributed. In addition to this, the law permitted that wherever there were unusual business enditions, occasioned by the arrival or departure of trains, which required the office to be kept open; than the office were third and fourth class postoffices where the law, the department had a scale of its own, which endeavored to regulate it by the amount of mail handled and the unusual

entities the party to extra compensation.

The postoffice at Martinsville is the one which is specially mentioned and to which attention is called in this article. This office was allowed \$600 for clerk hire. If the writer had examined the letters of the postmaster, Mr. C. P. Smith, which was published in the documents he had examined, he would have ascertined that this allowance, instead of being excessive, APPEARS TO HAVIS HEEN INADEQUATE. It is stated in this letter that he has to prepare mail for both the Norfolk and Western and Southern Railways, which intersect at Martinsville; that he has six daily mails, and that the postoffice is open from seven in the morning until cight at night; that he has to employ two men; that the work is so heavy it keeps them busy all the time.

time.

The allowance of \$500 was to pay him for the two men he was compelled to employ to give an efficient postal service that place. I received numerous letters from citizens, urging me to secure an increase, in order that they could have a more efficient service. Martinsville is put of the most enterprising manufacturing towns in the State, and I am glad to have been able to secure this increase and thus give them better mail facilities.

turing towns in the State, and I am glad to Aave been able to secure this increase and thus give them better mail facilities.

I am sure that no person who is reasonable, and not animated by political sonable, and not animated by political mailee, will consider \$600 excessive allowance for two men working from 7 in the moning until 8 at night.

The other two offices alluded to are Independence and Hillsville, such having an allowance made for clerical hire of \$480 per annum. In each of these places the postmater sent me a latter, giving the reasons why an increase was necessary in order to have efficient mail service there. Each stated in the letter he was compelled to employ one person all the time to distribute, collect and separate the mail, in addition to their own service. Each of these towns is the county sent of a "county from which many delivery routes radiate, where the office must necessarily be kept open late and early, where important mail to the cert's office and the courts located at these places require them to be kept open late and rearly, where important mail to the circle office and the courts located at these places require them to be kept open late and promptly. At each place I received many letters from citzens, urging the necessity for an increase and insisting that it should be procurred in order to have efficient service. Forty dollars a month is not excessive allowance for an efficient assistant at each of these important offices in the respective countles of Carroll and Grayson.

The only other office named in the article is that at Fries. On my recommendation, the allowance was increased from \$200 to \$300 per annum. Fries is a rall-road town, which required the receiving and dispatching of much mail on the runs, the keeping of the office open longer hours than are usual at fourth-class not unreasonable or excessive.

In each of these cases my recommendation, the allowance of \$400 was not unreasonable or excessive, and the allowance of \$400 was not unreasonable or excessive, and make m

made my recommendation to the department accordingly.

As I have stated, the committee that examined into these matters found not the slightest impropriety in them.

The postmosters at each of these places to whom the allowance for clerk bire was made, except at Chatham, were Republicans, who never supported me. I had no personal, pecuniary or political purposes for making these recommendations, but did so only because it was for the best interest of the service, and the claims for increase were just and right. The only other case mentioned in this standerous article is at Hanpton, Vis. In regard to the increase of careful allowed at that place on July 1, 1809, I had nothing to do with it, knew nothing of it and made no recommendation whatever. The citing of this, concerning which I had no connection or knowledge, is

s intent 67 the writer.

n 1992, when the lease was about to pire, I received letters from persons Hampton requesting me to recommend to the lease be renewed and the posteer emain where it then was located, reply to those requests was that it s not in my congressional distribution.

the owners of the bullding were required to make extensive improvments, costing them, I understand, nearly \$2,000, almost three years' rent, to make this office adequate and suitable for the purposes. I had no interest whateven this matter, simply uniting with the congressman from the district in endorsing the wishes of the parrons of the office for the best interest of the service. Inquiry since has convinced me that my recommendation in this matter was right.

Another fulse impression sought to be produced was that I was removed from the Postoffice Committee, This is not true.

At the last Congress Democratic representations of the contraction of the contraction of the produced was that I was removed from the Postoffice Committee. This is not true.

the Postoffice Committee. This is not true.

At the last Congress Democratic representation on all the Important committees was reduced. I was on two of the most important committees of the House-the Ways and Means and the Postoffice and Post Roads Committees.

As many Democrats, on account of the reduced representation of Democrats on committees, would be left without committee assignment, it was thought but right that I should give up one of my important committees, and it was left for me to determine myself whether I would remain on the Postoffice and Post Roads or the Ways and Means Committee, and I solected the Ways and Means committee, the most important and honorable committee of the House.

There are letters at the office of the Chief of Police for Mrs. G. L. Loving and for Mr. Emmett Folwards.

In each of these cases letters were received by me from the postmaster showing the amount of work he had to do, the case used in many of my care letters from clitzens, urging the four clerks and knod postal service. Terrible Sore on Ankle Caused Awful Suffering-Could Not Sleep nor Rest - Physician Sald Leg Would Have to Be Amputated.

#### CURED BY CUTICURA IN SIX WEEKS

"I had a terrible sore on my ankle and had not walked any for eleven months. I tried nearly everything without any benefit and had a doctor, but he didn't seem to do any good. He said I would have to have my leg taken off, and that I would never walk again. I suffered awful, and at night I could not sleep at all. I thought there was no rest for me, but as soon as I began to use Cuticura Soap and Ointenent it commenced healing nicely. I bathed the ankle with warm water and Cuticura Soap and then applied Cuticura Ointment to the affected part, and laid a cloth over the sore to hold it in place. After two weeks I could walk around in my room real good, and in six weeks' time my ankle was entirely cured and I was walking around out of doors. I am enjoying perfect health and have gone to work and feel as well as I ever did in my life, so I know that the Cuticura Remedies are the best in the world.
